Machine Learning

Weekly Project Report

Quantcats

Prachee Javiya AU1841032
Kaushal Patil AU1841040
Arpitsinh Vaghela AU1841034
Vrunda Gadesha AU2049007

Tasks Performed: Week 6

- Preparation of Mid semester Report
- Preparation of Mid semester Presentation
- Research to apply decision tree on our dataset

Meeting with T.A - Jay Patel Regarding suggestions on project.

- Project is going in correct direction, we need to focus to find only one model.
- We can try to apply the decision tree without using any libraries, from stretch.
- Created confusion matrix
- Resampling of dataset

Outcomes
- Studied decision tree
- The work done is incomplete, hence not pushed to the main repository.
  - Result matrices for previously implemented algorithms

Upcoming weeks
- Implementing decision tree algorithm from scratch.
